All student learning outcomes for GEOG 1, GEOG 1L, and GEOG 2 have been assessed in the last year.

Describe how assessment results and reflection on those results have led to improvements.

For GEOG 1, student performance has been mixed. In 2013-14 and 2014-15, faculty reported higher performance using question and answer forums, highlighting challenging topics, in online classes, as compared with objective test questions used in traditional face-to-face classes. In the Fall 2015 department meeting, we discussed analyzing students’ written work, and using this to build our own understanding of how to address difficult concepts. As stated in a recent [blog post](#) by Dan Meyer, “It’s the students’ job to inquire into the material, and while they do that, it’s my job to inquire into their thinking.”

For GEOG 1L and GEOG 2, student learning outcomes were assessed for the first time in 2014-15, and all performance targets were met or exceeded.
