<p>Student Equity and Achievement goals matrix update</p>	<p>MD Montague provided updated on SEA activity goals. Major updates- no early alert system college/district wide. Starfish rollout has not been successful. H Lira, L Willis, P Armstead agreed that all equity programs use their "own" early alert progress system. It would be best if a system was in place to support the effort college wide, discussion of who would administer and monitor all college system. Would like to see traction with degree conferral online. Need a counseling rep who will provide us real updates. Achieved success/progress on most activities identified in current plan.</p>
