# (re)Imagine CoA

---

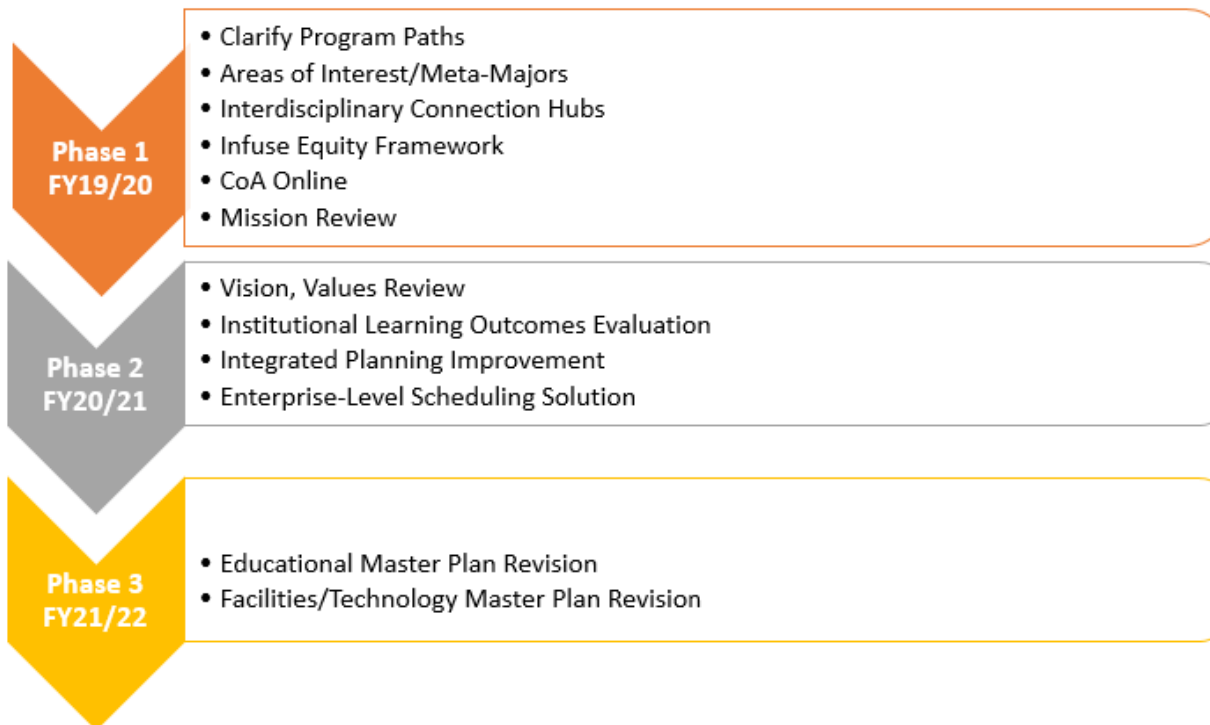

GOAL: Focus on creating comprehensive and flexible pathways that empower students to achieve their goals. To fuse all the major State initiatives into one integrated approach to increase student success and mitigate barriers. Work will begin within the current three-year planning cycle (18-21) and be completed in the next cycle (21-24).

# (re)Imagine CoA

---

We shall design and implement guided pathways with great care and intention in order to close the achievement gaps without compromising rigor. We seek to empower a wider range of diverse students to succeed in higher education and career opportunities

# Equity Academies

November 13-15, 2019

***The Anatomy of a Transformative Course: Critical Competencies for Student Success***

***CoA is sending three teams of 30 each!***

The Anatomy of a Transformative Course is an immersive professional development experience that engages educators in the process of examining current syllabi, interrogating the course outline, exploring pedagogical practices and rethinking grading

February 19-21, 2020

***Counseling in the Era of Equity : Critical Competencies for Student Success***

Counseling in the Era of Equity engages counselors in the process of examining our current practices and exploring innovative pedagogical approaches that can be applied to the needs and goals of colleges as they make the transitions to Meta Majors and Guided Pathways.
