Students satisfactorily completing the following required courses will be eligible for the **AA degree** and the **Certificate of Achievement in Computer Information Systems**. Confer with a counselor or the dean concerning the specific pattern of requirements for this program and refer to the Degrees and Programs section of the Catalog for information on the Associate in Arts degree.

Computers are everywhere and impact many of our daily activities. Our lives are dependent on information from a computer. Computer skills are a necessity in today's technological world.

The CIS program at College of Alameda prepares you for entry-level business opportunities requiring the use of computer applications, such as word processing, spreadsheet, database management, and geographical information systems (GIS) programs. Our CIS program prepares you for transfer to a university. Advanced students take programming courses, help desk and networking courses, and web publishing courses.

We offer beginning and advanced office application courses. We are the only Peralta college to offer help desk (desktop support technician) courses and networking courses. Our web publishing courses, offered as hybrid (with some face to face meetings) as well as online, lead to a certificate of proficiency upon successful completion of the courses. We also offer other online CIS courses which can fit your busy schedule.

Career Opportunities

The Computer Information Systems (CIS) program prepares students for entry level business positions requiring the use of computer applications, and will qualify students in the use of word processing, spreadsheet and database management applications. More advanced students may enroll in telecommunications and computer networking courses. In some instances, students with work experience in the above mentioned areas may challenge courses based on that experience. Students seeking advanced placement must meet with an instructor to verify knowledge and skills.

Program Learning Outcomes

Upon completion of this program a student will be able to:

- Develop an understanding of the problems and issues confronting individuals and society in general in the use of computers
- Analyze problems and design solutions using the program life cycle concept, HIPO charts, and program logic flowcharts
- Use and write simple Visual Basic code
- Create presentation-quality charts of several types

Degree Major Requirements

| DEPT/NO. | TITLE | UNITS |
|----------|---|-------|
| CIS 1 | Introduction to Computer Information Systems (4) | |
| | or | 4-5 |
| CIS 5 | Introduction to Computer Science (5) | |
| CIS 40 | Database Management | 4 |
| CIS 42 | Spreadsheet Applications | 4 |
| BUS 238A | Word Processing I (3) | |
| | or | 3 |
| CIS 238A | Word Processing I (3) | |

Select a minimum of 9-10 units from the following:

| BUS 238B | Word Processing II (3) | | |
|----------------------------|--|------|--|
| CIS 238B | or Word Processing II (3) | | |
| CIS 23 | C# Programming (4) | | |
| CIS 25 | Object-Oriented Programming Using C++ (4) | | |
| CIS 36A | Java Programming Language I (4) | | |
| CIS 36B | Java Programming Language II (4) | | |
| CIS 39A | UNIX/LINUX Operating System (4) | | |
| CIS 97A | Oracle SQL and PL/SQL (4) | 9-10 | |
| CIS 209 | Introduction to Windows (1) | | |
| CIS 234A | World Wide Web Publishing I (2) | | |
| CIS 234B | World Wide Web Publishing II (2) | | |
| CIS 234D | Web Authoring (2) | | |
| CIS 234E | Creating an E-Commerce Web Site (2) | | |
| CIS 239 | Help Desk Tools and Techniques (2) | | |
| Minimum Required Units: 24 | | | |

The Data Analytics Certificate of Proficiency includes proficiency in MS Office applications, basic computer programming skills, database management system fundamentals, SQL, PL/SQL, Business Intelligence (BI) tools such as Tableau, general understanding of Geographical Information Systems and statistical software, R.

Career Opportunities

According to a study published by Broadening Advanced Technological Education Connections (BATECH), in 2014, there were 700,000 online job postings for occupations supporting Big Data. 130,030 of those job postings were related to data analytics and related positions. Although the majority of the job postings require a bachelor's or higher degree, massive demands exist for associate degrees or certificate holders with data analytics skills.

This program will prepare students for entry level jobs advertised as data analysts and domain analysts in various industries.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Design and write computer programs to generate descriptive statistics and explore data with graphs
- Demonstrate the ability manage unstructured and structured data and design of large scale database systems.

Degree Major Requirements

| DEPT/NO. | TITLE | HOURS |
|----------|---|-------|
| CIS 121 | Introduction to Statistical Software Programming | 3 |
| CIS 122 | Data Analysis Using Statistical Software | 3 |
| CIS 123 | Introduction to Big Data and Analytics | 3 |
| | Total Required Hours: | 9 |

Desktop Support Technician CERTIFICATE OF ACHIEVEMENT

Students satisfactorily completing the required courses in the following certificate course block (16 units) will be eligible for the **Certificate of Achievement**. Confer with a counselor or the division dean concerning the specific pattern of requirements for this program.

Career Opportunities

A Desktop Support Technician Certificate of Achievement can lead to employment as Customer Service Representatives, Cashiers, Telemarketers, Data Entry Keyers, Office and Administrative Support Workers, and provide the foundation for higher education that can lead to careers as Computer and Information Systems Managers, Computer Network Support Specialists, Web Developers, Database Administrators, and Technical Writers.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate the ability to analyze typical user problems and construct solutions to them in the problem areas of operating systems, office suites, hardware, networks, and printing.
- Demonstrate the ability to install, configure, and troubleshoot windows operating systems, hardware devices and drivers, and manage the windows desktop environment.
- Demonstrate the understanding of system administration tasks for maintaining virtual servers.

Degree Major Requirements

| DEPT/NO. | TITLE | UNITS |
|----------|---|-------|
| CIS 1 | Introduction to Computer Information Systems | 4 |
| CIS 201 | Introduction to Computer Hardware | 4 |
| CIS 226A | Desktop Support Technician I | 3 |
| CIS 226B | Desktop Support Technician II | 3 |
| CIS 239 | Help Desk Tools and Techniques | 2 |
| | Total Required Units: | 16 |

Students satisfactorily completing the required courses in the following certificate options will be eligible for the Certificate of Proficiency. Confer with a counselor or the division dean concerning the specific pattern of requirements for these programs.

Degree Major Requirements

| DEPT/NO. | TITLE | UNITS |
|----------|---------------------------------|-------|
| CIS 233 | Introduction to the Internet | 2 |
| CIS 234A | World Wide Web Publishing I | 2 |
| CIS 234B | World Wide Web Publishing II | 2 |
| CIS 234D | Web Authoring | 2 |
| CIS 234E | Creating an E-Commerce Web Site | 2 |
| | Total Required Units: | 10 |

Computer Information Systems discipline is the integration of three dimensions: Technology, Organization, People ("TOP"). Technology (IT) dimension involves hardware, software, network, and database management. Organization dimension involves politics (power distribution), policies (codes of conduct), and procedures (process methods). People dimension involves skills, training, ergonomics (man-machine synergy), and personalities ("STEP").

CIS discipline is dedicated to students seeking to develop their technology skills.

Bureau of Labor Statistics (BLS) in 2018 reports jobs for computer and information technology will grow 13 percent from 2016 to 2026, faster than the average for all occupations. CIS jobs are projected to add about 557,100 new openings. This growth in CIS industry stems from demands for cloud computing, information security, online storage and analysis of big data.

The median annual wage for CIS occupations, which include managers, was 84.5K in May 2017, higher than the median annual wage for all occupations of 37.7K. According to Payscale.com, the average annual pay for IT Specialists, which exclude managers, is 55K within 36K to 96K range.

Students should consider what we offer – CIS degree, CIS certificate of achievement, Desktop Help Technician certificate or Web Publishing certificate of proficiency.

CIS 1

Introduction to Computer Information Systems

- 4 units, 3 hours lecture, 3 hours laboratory (GR)
- Eligible for credit by examination
- Acceptable for credit: CSU, UC

General nature of computer hardware, software and systems: Hands-on applications include introduction to word processing, spreadsheet, database management and presentation software, and a brief introduction to web browsing and e-mail. 0702.00

AA/AS area 4c; CSU area E

CIS 4

Introduction to Geographical Information Systems

- 4 units, 3 hours lecture, 3 hours lab (GR)
- Acceptable for credit: CSU

• Recommended Preparation: CIS 1, CIS 5, CIS 40 Introduction to Geographic Information Systems [GIS]: Fundamental concepts, cartographic principles, hardware and software requirements; Charts, graphs, and full map layouts; Data structures and sources; Spatial databases and analysis. 0702.00 AA/AS area 4c

CIS 5

Introduction to Computer Science

- 5 units, 4 hours lecture, 3 hours laboratory (GR)
- Eligible for credit by examination
- Acceptable for credit: CSU, UC

Introduction to computer science: Architecture of digital computers, design of algorithms for solving various problems, and basic skills in computer programming. 0701.00

AA/AS area 4c

CIS 6

Introduction to Computer Programming

- 5 units, 4 hours lecture, 3 hours laboratory (GR or P/NP)
- Recommended preparation: CIS 5
- Acceptable for credit: CSU, UC

Introduction to computer programming: Algorithm design, flow charting, and debugging; elements of good programming style. Course may be instructed in any programming language. 0707.10 AA/AS area 4c

CIS 23

C# Programming

- 4 units, 3 hours lecture, 3 hours laboratory (GR)
- Acceptable for credit: CSU, UC

C# programming: Basic unified modeling language (UML) notation in object-oriented software design and development using the C# programming language in a .Net environment; focus on the program structure, syntax, constructs and keywords of the C# programming language, concepts of intermediate languages (ILs), the common language runtime (CLR), and .Net standard data types. 0707.10

AA/AS area 4c

CIS 25

Object-Oriented Programming Using C++

- 4 units, 3 hours lecture, 3 hours laboratory (GR)
- Recommended preparation: CIS 6 or 10 or 26
- Acceptable for credit: CSU, UC

Object-oriented methods of software development using C++: Design and implementation of objects, class construction and destruction, encapsulation, inheritance, and polymorphism. 0707.10 AA/AS area 4c

CIS 40

Database Management

- 4 units, 3 hours lecture, 3 hours laboratory (GR or P/NP)
- Recommended preparation: CIS 1 or 5
- Acceptable for credit: CSU

Design, implementation, and maintenance of databases: Analysis of user requirements; building tables, queries, forms, reports, and other topics. 0702.10

AA/AS area 4c

CIS 42

Spreadsheet Applications

- 4 units, 3 hours lecture, 3 hours laboratory (GR or P/NP)
- Recommended preparation: CIS 1 or 5 or 200
- Not open for credit to students who have completed
 - or are currently enrolled in CIS 42A and/or 42B.
- Acceptable for credit: CSU

Principles of electronic spreadsheets using features available with current popular spreadsheet software: Worksheet creation, formatting and charting; entering data and formulas; functions; editing and printing; web queries; basic database functions of sorting and querying; creating web pages; logical functions; lookup tables; Pivot Tables, Pivot Charts, and trendlines; graphic design for financial statements; creating templates; using macros. 0702.10

AA/AS area 4c

CIS 49 Independent Study in Computer Information Systems

- .5-5 units, .5-5 hours lecture (GR or P/NP)
- Acceptable for credit: CSU

In-depth exploration of an area or problem of the student's choice not covered by regular catalog offerings in Computer information System. Student must obtain approval from an appropriate faculty member. For more details, see the section on independent study in the college catalog. 0702.00

AA/AS area 4c

CIS 62

Introduction to Systems Analysis and Design

- 3 units, 3 hours lecture, (GR or P/NP)
- Acceptable for credit: CSU

Principles of systems analysis and design: Systematic methodology for analyzing business problems or opportunities; OOA&D (Object/Oriented Analysis and Design) and UML, the role technologies can play in addressing business needs, articulation of business requirements for technology solutions, alternative approaches to acquiring the technology capabilities needed to address business requirements, and specification of requirements for the information systems solution. 0707.30

CIS 70

Introduction to Tableau Analytics

- 2 units, 1.5 hours lecture, 1.5 hours laboratory (GR)
- Acceptable for credit: CSU

Introduction to Tableau desktop software application used for Big Data Analytics and Business Intelligence: various operations such as filters, calculations, creating sets, charting data, and creating visuals; usage of software to help businesses gain insight into trends in order to make informed decisions. 0702.10 AA/AS area 4c

CIS 71

Introduction to Information System Security

3 units, 2 hours lecture, 3 hours laboratory (GR or P/NP)
Prerequisite: CIS 1; or CIS 5

Fundamental principles of Information Technology, Security and Risk Management: Hardware, software, processes, communications, applications, and policies and procedures of organizational cyber security and risk management. 702.00

CIS 73

Networking Concepts

- 4 units, 3 hours lecture, 3 hours laboratory (GR or P/NP)
- Prerequisite: CIS 1; or CIS 5

Introduction to the R programming language to perform data manipulation, statistical analysis and graphics applications: Core elements of R programming language and procedures, data management, manipulation, storage, retrieval, and graphing . Another compatible statistical software may be used. 0708.10

CIS 97A

Oracle SQL and PL/SQL

- 4 units, 3 hours lecture, 3 hours laboratory (GR or P/NP)
- Prerequisite: CIS 1
- Acceptable for credit: CSU

Introduction to the design and development of multiuser relational database systems: Oracle SQL and fundamentals of PL/SQL programming. 0707.20

AA/AS area 4c

CIS 110

Introduction to Systems Analysis and Design

• 4 units, 3 hours lecture, 3 hours laboratory (GR or P/NP) Fundamentals of computer hardware, software, and networking: Security, assembly of information systems through configuration and integration of Information Technology components. 0701.00

CIS 121

Introduction to Statistical Software Programming

• 3 units, 3 hours lecture (GR)

Introduction to the R programming language to perform data manipulation, statistical analysis and graphics applications: Core elements of R programming language and procedures, data management, manipulation, storage, retrieval, and graphing. Another compatible statistical software may be used. 0707.20

CIS 122

0707.20

Data Analysis Using Statistical Software

• 3 units, 3 hours lecture (GR)

Recommended Preparation: MATH 013; or CIS 121

Computer application on inferential statistics: Hypothesis testing with single and paired t-tests, analysis of variance, simple and multiple linear regression, chi-square, logistics problems, queuing theory, Markov Analysis and computer simulation.

COMPUTER INFORMATION SYSTEMS

CIS 123 Introduction to Big Data and Analytics

• 3 units, 3 hours lecture (GR)

Introduction to Big-Data, management of unstructured and structured data and design of large scale database systems: Map-reduce parallel processing algorithms, Real-time analytics and Predictive analytics, attributes of Big-Data and related issues, large scale file systems and operations. 0707.20

CIS 201

Introduction to Computer Hardware

• 4 units, 3 hours lecture, 3 hours lab (GR or P/NP) Introduction to computer hardware: Maintaining and servicing computer equipment, fundamental concepts and architecture, major computer subsystems and peripheral devices, common computer problems, troubleshooting techniques, repair procedures and preventive maintenance; traditional, current and emerging computer technologies. 0708.20 AA/AS area 4c

CIS 205

Computer Literacy

- 1 unit, 0.75 hours lecture, 0.75 hours lab (GR or P/NP)
- Also offered as Bus 219. Not open for credit to students who have completed or are currently enrolled in Business 219.
- Eligible for credit by examination

Introduction to computers and information technology for people with no background in nor knowledge of computers. 0701.00

AA/AS area 4c

CIS 209

Introduction to Windows

- 1 unit, .75 hours lecture, .75 hours lab (GR or P/NP)
- Recommended preparation: CIS 205

Introduction to graphical user interfaces using Microsoft Windows. 0702.00

AA/AS area 4c

CIS 223A

Introduction to Microsoft Word I

• 1 unit, 0.75 hours lecture, 0.75 hours lab (GR or P/NP) Basic understanding of fundamentals of word processing with Microsoft Word: Introduction to creating, formatting, and editing a Word document; preparation for the Microsoft Office User Specialist exam for MS Word. 0702.10

CIS 223B Introduction to Excel

• 1 unit, 0.75 hours lecture, 0.75 hours lab (GR or P/NP) Basic understanding of Microsoft Excel spreadsheet design: Introduction to the foundation of creating, editing, and modifying of basic spreadsheets; understanding basic MS Excel concepts for appropriate problem-solving techniques; preparation for the Microsoft Office User Certification exam for Excel. 0702.10

AA/AS area 4c

CIS 223C

Introduction to Microsoft Access I

• 1 unit, 0.75 hours lecture, 0.75 hours lab (GR or P/NP) Basic understanding of fundamental relational database design and management: Introduction to building tables, forms, queries, and reports; preparation for the Microsoft Office User Specialist exam for MS Access. 0702.10

AA/AS area 4c

CIS 223D

Introduction to MS PowerPoint I

• 1 unit, 0.75 hours lecture, 0.75 hours lab (GR or P/NP) Basic understanding of fundamental presentation graphics software using Microsoft Powerpoint: Introduction to creating, editing, modifying, producing, and formatting Powerpoint presentations; applying appropriate problem-solving techniques in the slide presentation production process. 0702.10 AA/AS area 4c

CIS 223E

Introduction to Outlook1 unit, 0.75 hours lecture, 0.75 hours laboratory

(GR or P/NP) Introduction to personal management software and use of Microsoft Outlook: Create rules to manage incoming mail by using folders; compose, send, and respond to e-mail messages, including using attachments.; create and manage contacts and groups; create, edit, and update calendar appointments, events, and meeting requests. 702.1

CIS 223F

Computer Keyboarding Proficiency

• 1 units, 0.75 hours lecture, 0.75 hours laboratory (GR or P/NP)

Beginning keyboarding : Touch-typing techniques for alphanumeric, symbol, and punctuation keys: Develops a foundation for keyboarding speed and accuracy; proofreader's marks;and a goal of minimum keyboarding speed of 15 net words per minute on a two-minute timed typing. 51400.00

CIS 226A Desktop Support Technician I

• 3 units, 2 hours lecture, 3 hours lab (GR or P/NP) Windows Desktop applications: Configuring and troubleshooting, access to resources, hardware devices, desktop and user environments, and network services. 0708.20

AA/AS area 4c

CIS 226B

Desktop Support Technician II

- 3 units, 2 hours lecture, 3 hours laboratory (GR or P/NP)
- Recommended preparation: CIS 1

Windows desktop support: Supporting users and troubleshooting applications. 0708.20

AA/AS area 4c

CIS 227

Word Processing for Legal Professionals

- 3 units, 2 hours lecture, 3 hours laboratory (GR or P/NP)
 Recommended preparation: BUS 230DEF (Self-Paced).
- Students should be able to type 25 words per minute. • Also offered as BUS 227. Not open for credit to
- students who have completed or are currently enrolled in BUS 227.

Emphasis on the use of Microsoft Office Word Application features to create legal-oriented documents: legal correspondence, legal pleadings, memorandum of points and authorities, table of contents, table of authorities, indexes, and forms. 0706.00

AA/AS area 4c

CIS 233

Introduction to the Internet

• 2 units, 1.5 hours lecture, 1.5 hours lab (G, P/NP) Introduction to the Internet: Search engines, access methods, and resources. 0701.00

AA/AS area 4c

CIS 234A World Wide Web Publishing I

- 2 units, 1.5 hours lecture, 1.5 hours laboratory
- (GR or P/NP)

• Recommended preparation: CIS 233 and GRART 112 Creating and publishing Web pages over the Internet using the Hypertext Markup Language (HTML). 0709.00 AA/AS area 4c

CIS 234B World Wide Web Publishing II

- 2 units, 1.5 hours lecture, 1.5 hours laboratory
- (GR or P/NP)
- Prerequisite: CIS 233 and 234A
- Recommended preparation: GRART 112

Continuation of CIS 234A: Emphasis on advanced HTML and layout techniques, client-side image maps, CGI scripting, introduction to cascading style sheets and dynamic scripting. 0709.00 AA/AS area 4c

CIS 234D Web Authoring

- 2 units, 1.5 hours lecture, 1.5 hours laboratory
- (GR or P/NP)
- Recommended preparation: CIS 234A

Art of web design and the power of web authoring in website content management and functionality: Website templates, customization, layout tables, interactive forms, frames, database interface, wizards, source controls, dynamic layers, instant updates, multimedia content, subsite and website management. 0709.00 AA/AS area 4c

CIS 234E

Creating an E-Commerce Web Site

- 2 units, 1.5 hours lecture, 1.5 hours laboratory
- (GR or P/NP)
- Recommended preparation: CIS 234A

Business strategies and programming techniques in the design and development of an electronic commerce web presence: Banner ads, auto responders, product catalogs, shopping carts, cookies, electronic payment systems, online database and website security management. 0709.00

AA/AS area 4c

CIS 238A

Word Processing I

• 3 units, 2 hours lecture, 1 hour lab (GR)

Introduction to word processing concepts and basic computer operations: Topics include: file management, creating, editing and printing documents; spell checker, thesaurus, and grammar tools; graphics; text formatting and manipulation; tables; basic desktop publishing. 0702.10

AA/AS area 4C

CIS 238B

Word Processing II

• 3 units, 2 hours lecture, 1 hour lab (GR)

Intermediate level word processing skills: Templates and styles, preparing and managing long documents, mail merge, integrating word processing applications with other applications and the World Wide Web, customizing word processing applications, creating and using forms. 0702.10 AA/AS area 4C

CIS 239

Help-Desk Tools and Techniques

- 2 units, 1.5 hours lecture, 1.5 hours laboratory
- (GR or P/NP)
- Recommended preparation: CIS 1

Help-desk tools and techniques: Troubleshooting problems on computer systems, both networked and stand-alone; customer-service skills for success; use of help-desk software. 0708.20

AA/AS area 4c

NONCREDIT COURSES

CIS 569 Real-World Devices Connected through the Internet

- 0 units, 2 hours lecture, 2 hours laboratory
- (P/NP or Satisfactory progress)

Introduction to the "Internet of Things" (IoT): Study of physical or real- world devices, "things," that are increasingly being connected to, visible through, and controllable via the Internet and web technologies; project based exploration to build IoT devices/solutions using System on a Chip (SoC) technologies like the Raspberry Pi and microcontrollers like the Arduino using basic Python and C programming languages. 702.10
