Climate survey will be disseminated and shared sometime in fall.

4. Fab Lab – *Steph Droker*

Miguel has been brought on as part-time faculty in the Maker's space to get the program up and running. Administration has been discussing putting the Maker's space under CE and away from STEM. CE has been working with Fab Lab for a while, there's a CE Top code and all the certificates are written as CE certificates. There's other colleges where the Maker's space is under STEM, but those colleges have engineering departments.
