2022-23 Annual Program Update – Sociology

Program Overview

Please provide your program's mission statement and program's learning outcomes

The mission of the COA Sociology Department is to prepare our students to succeed academically as sociology transfer students and to be able to think critically as workers and citizens. Through our array of lower division courses that provide training in research methods and exposure to classic and cutting-edge research, students build a solid foundation for sociological success.

Describe your current utilization of facilities, including labs and other space

Beginning Spring 2022 our department returned to in person instruction in College of Alameda's new building. Due to a decline in enrollment, we were only able to fill one in person course per semester (Spring 2022 and Fall 2022). Students are utilizing the smart classroom, well-designed space conducive for group work and discussions, as well as the College of Alameda library. As we remain primarily virtual, the department utilizes technological and virtual facilities available at COA and PCCD (ex. Canvas LMS, Educational Applications, the Library Website, COA's website).

List your program goals from your most recent Program Review or APU. Then, provide an update on the status of the goal. Has your program achieved the goal? Have any of your goals been revised or any still in progress? Lastly, make sure to discuss which College or District goal your program goal aligns to.

If no program goals exist or if this is your first program review, work to create 2-3 goals and align them with a College or District goal.

Program Goal	Define core concepts of sociology (sociological theories, social structures, culture, social inequality and stratification, race/ethnicity, gender, and globalization). [Foundational knowledge in Sociology]
Status: In-Progress or Complete?	In-Progress Assessed by meetings SLOs across all courses taught in the department
Which college or district goal is aligned with your program goal?	Aligned to COA ILOs: (1) solve problems and make decisions in life and work using critical thinking, quantitative reasoning, community resources, and civil engagement. (2) Use technology and written and oral communication to discover, develop, and relate critical ideas in multiple environments. (3) Exhibit aesthetic reflection to promote, participate and contribute to human development, expression, creativity, and curiosity. (4) Engage in respectful interpersonal communications, acknowledging ideas and values of diverse individuals that represent different ethnic, racial, cultural, and gender expressions. (5) Accept personal, civic, social and environmental responsibility in order to become a productive local and global community member.

Program Goal	Apply a working sociological imagination to everyday life with a commitment to social justice and equality in our diverse world. [Critical Sociological Thinking]
Status: In-Progress or Complete?	In-Progress Assessed by meeting SLOs of all courses taught across the department

<p>Status: In-Progress or Complete?</p>	<p>In-Progress</p> <p>Assessment of this program goal involves examination of the number of AA-T degrees awarded and an exit survey students complete at the end of the Spring semester.</p> <p>The number of AA-T degrees awarded has declined from a peak of 32 in 2019. This could be a result of the pandemic. Also, it is difficult to determine if students earned a terminal AA degree or also transferred to a four-year institution. Nevertheless, degrees awarded rebounded in 2021 and remain relatively flat in 2022.</p> <div data-bbox="672 1503 1474 1709" data-label="Figure"> <table border="1"> <caption>Awards Trend</caption> <thead> <tr> <th>Year</th> <th>Number of Degrees</th> </tr> </thead> <tbody> <tr> <td>2017-2018</td> <td>20</td> </tr> <tr> <td>2018-2019</td> <td>32</td> </tr> <tr> <td>2019-2020</td> <td>10</td> </tr> <tr> <td>2020-2021</td> <td>22</td> </tr> <tr> <td>2021-2022</td> <td>21</td> </tr> </tbody> </table> </div>	Year	Number of Degrees	2017-2018	20	2018-2019	32	2019-2020	10	2020-2021	22	2021-2022	21

Describe any significant changes and discuss what the changes mean to your program. Consider whether performance gaps exist for disproportionality impacted students by using filters to disaggregate the data. Focus upon the most recent year and/or the years since your last comprehensive program review. Cite data points to support your reflection.

Course completion and retention data for 2021-2022 reveals that student success (75.6%) and retention rates (86.5%) are above the wider college averages (70.7% | 84.9%). Success rates for Hispanic/Latino and Pacific Islander students are lowest among students, however group size for Pacific Islander students is low (7). By age, the majority of students are between the ages of 19-24 (407 | 53%) with a success rate of 77.4% and retention rate of 88.5%. Success rates are lowest among 30–34-year-old students (64.3%). More research is needed to uncover what age-specific challenges this group faces. Labor market and family obligations may be challenges to successful completion of courses. Success and retention rates trend higher than the college mean for DSPS/SAS, First Generation, Low Income, Pell Grant, and BOGG Promise students.

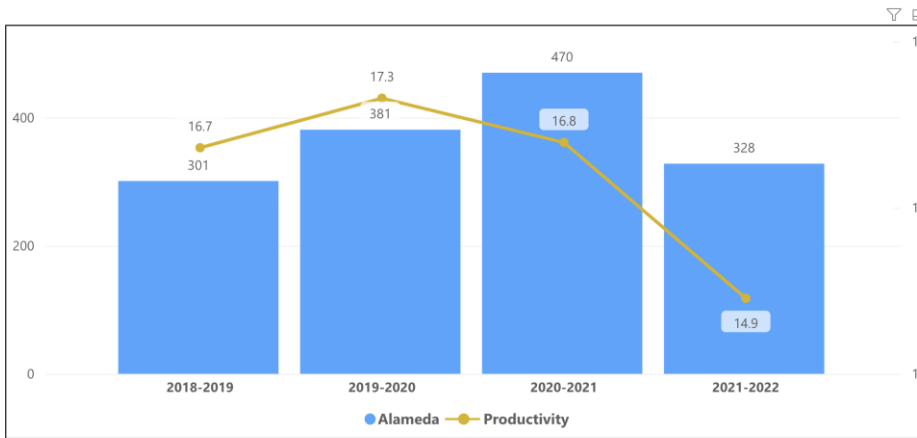

In Spring 2022, the college offered one in-person section of Sociology 1. Enrollment was low due to the surge of COVID-19's Omicron variant. As a result, success and retention data for in-person courses seem low. The department has also offered one in-person section of Sociology 1 for the Fall 2022 semester and will increasing in-person course offerings in Spring 2023. Future data will present a more accurate picture of differences in student success and retention by mode of instruction.

Census Enrollment and Productivity by Year and Campus

Census Enrollment and Productivity by Year and Campus

In the last Program Review, the department identified that Black/African American Women students are disproportionately impacted (Black/African American/Female -9%<-13.82<9%). 18 Black/African American/Female Students Lost or Needed to Close the Equity Gap and 5 Two or More Female Students Lost or Needed to Close the Equity Gap.

Due to the COVID-19 pandemic, classes were no longer offered in person. As the college does not provide childcare, the department (in consultation with college and district policies) may offer policies on students bringing children to class. Also, additional inquiry is necessary to determine why these student populations are disproportionately impacted. For example, is the same true across the college, district, and state?

Describe the department's progress on Student Learning Outcomes (SLOs) and/or Service Area Outcomes (SAOs) since the last Program Review/APU.

The department continues to assess student learning outcomes. The following list summarizes which SLOs have been assessed:

SOC 1 SLO 1 “Understand the relationship between social structures, institutions, and individuals.”

95.65 % of students (66/69) answered the question correctly.

Performance across three sections with two modes of instructional delivery indicates that students meet the success criteria of SLO #1

SOC 2 SLO #1: “Examine and assess social problems from a sociological perspective by applying sociological theories.”

100% of Students earned 70% or more on this assignment (excluding 2 0 values for non-submission).

SOC 2 SLO #2 “Develop and assess social solutions to social problems examined over the course of the semester”

76.67% of students were successful in this assignment. The SLO was met.

This data reveals that our instruction meets the student learning outcomes of our courses. Most of instruction over the last calendar year has been online/distance education. This suggests that despite the challenges of the pandemic and online delivery of instruction, we continue to provide excellent instruction.

Describe the outcomes and accomplishments from previous year's funded resource allocation request.

Brief description of funded request	Source (any additional award outside your base allocation)	Total Award Amount	Outcome/Accomplishment
Apple AirPods iPad Apple MacBook Pro Printer Ergonomic Keyboard Extra Monitor		\$2,500	Improved instruction – new technologies allow instructors to deliver education in a seamless manner. Additionally, the faster the technology, the faster our department is in responding to student needs and meeting college deadlines.
